### NON-LOCAL ENROLMENT APPLICATION

In most instances our school will be unable to accept enrolment applications from students residing outside the school's intake area. As a matter of process any enrolment application from an **out of area student will be referred to the student's local designated Public School**. A request for an out of area application may then be submitted for consideration by the school's enrolment panel. (9.4.3)

**Please note:** Most schools significantly restrict the number of "Non-Local Enrolments".

### NON-LOCAL ENROLMENT APPLICATION PROCESS

1. Parents in the first instance are requested to make an application for enrolment at their designated local school (according to school intake maps)
2. Parents may make an application for a Non-Local Enrolment for a school other than their local Public School based on the Department's enrolment policy guidelines for 'out of area' applications to be considered by the school's enrolment panel and according to the Department's policy.
3. Criteria for non-local enrolment applications must be documented and cannot be unlawfully discriminatory.

**Criteria may include:**

1. Siblings already enrolled at the school
2. Proximity and access to the school
3. Medical reasons
4. Safety and supervision of the student before and after school
5. Compassionate circumstances
6. Structure and organisation of the school
7. Recent change in the local intake area boundaries.
8. Family law/ court orders

The principal may establish an enrolment panel consistent with section 9.4.3 (DoE Enrolment Policy) to determine and prioritise the criteria. Priority should be given to siblings of currently enrolled students, where possible.

**Please note: Submission of this form does not imply acceptance of the enrolment.**
